1. LETTER OF THE BOARD OF DIRECTORS

Dear Shareholders and Investors,

We would like to present you 2014 annual report of TrophyResort Nyrt.

We are pleased to inform that the year 2014 brought breakthrough for both of our business lines which are hotel business with additional medical services and project management.

In 2014 sales revenues amounted to HUF 849.632mn (EUR 2.698mn), EBITDA amounted to HUF 426.081mn (EUR 1.35mn), while net profit amounted to HUF 277.713mn (EUR 0.88mn). Sales, EBITDA and net profit increased by 0,4%, 38,3% and 226,4%, respectively. EBITDA margin and net profit margin amounted to 50,15% and 32,69%, respectively.

In the last year the first hotel was under extensive renovation. The hotel has been closed since May 2012. Most of the reconstruction works will be completed by the end of 2015, as last investments relating to medical services will be finished by the end of 2015. The complex wellness center will consist of four-star superior hotel with a healthcare center and further facilities providing entertainment and leisure opportunities.

We plan several further investments in the hotel business. Our strategy is to purchase existing hotels, renovate and enhance them to provide additional wellness and medical services. We have already identified 2 additional hotels that we would like to include into our chain by the end of 2015.

Due to reconstruction works of the first hotel we expect project management branch to remain our main activity in terms of sales revenue in 2015. We expect 2015 sales revenue to increase at least by 20% based on the growth of project management branch. In the second half of 2015 we will start to sell timeshares which may additionally improve our financial results.

We are happy to inform that we have succeeded with WSE to introduce TrophyResort Nyrt. shares into NewConnect. Our goal is to list the company on the regulated market of WSE in the next 2 years.

Sincerely,

TrophyResort Zrt.

Petronella Öregné Kocsis
Chairman of the Board of Directors of TrophyResort Nyrt.

2. Selected financial information

Detailed explanation for the business year of 2014:

In 2015 the main aim of our company is strengthening its capitalization. In the main goals we are targeting is to exchange the bank loans with our own resources, to make available the necessary financial resources we need to finish our hotel investments, and to introduce the shares of the company on different Stock Exchanges. As one step of this process, the shares of Trophy Resort were introduced to the Cyprus Stock Exchange on the 29th of September 2014. The introduction to the Warsaw Stock Exchange NewConnect has been succeeded on the 21st of April 2015.

Because our previous profit driver sector, the Hotels, being closed for renovation, they did not make profit in 2014. Therefore the management building on their available relationship network and human resources, we put a major emphasis on tender counseling and project management, and in a smaller extent the related sales activities. These customers are changes, we only have a few constant partner, but seek to form long term relationships, but because of the nature of the business these cooperations are one off.

Independent auditor's report

To the Owners / Shareholders of TrophyResort Nyrt.

Report on the consolidated financial statements

We have audited the accompanying consolidated financial statements of TrophyResort Nyrt. (hereafter 'the Company') for the financial year 2014, which consolidated financial statements include the consolidated statement of financial positions as of 31. 12. 2014 - where the identical sum of assets and liabilities THUF 5 879 051, and the profit of the year THUF 277 713 is -, the consolidated statement of profit or loss and other comprehensive income concerning the period ending on the date mentioned before, the consolidated statement of changes in equity, the consolidated statement of cash flows and the consolidated notes containing the decisive elements of the accounting policies and other explanatory information.

The management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the International Financial Reporting Standards (IFRS) as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the Hungarian National Standards on Auditing.

Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of TrophyResort Nyrt. and its undertakings involved in the consolidation as of 31. 12. 2014, and of their financial performance and their cash flows for the year then ended in accordance with the regulations of the International Financial Reporting Standards (IFRS) as adopted by the European Union.

Emphasis of Matter

Without qualifying our opinion, we would like to call your attention with connection to the remarks concerning Intangible assets (reference 1 of consolidated notes) to the followings.

The future operation of the Group is complex hotel service where the Group is in a construction phase.

Because of this there are several factors causing risks between the Group's business plans and their expected outcome.

The business plan and its risk evaluation is known and verified by independent third parties.

Due to uncertainties concerning the plan's fulfillment other effects differing from the calculated risks might be expressed, which effects the Group management has calculated with and also disclosed.

This effect means an emphasis of matter-like remark in our audit opinion.

Other reporting liabilities: our report on the business report

We have conducted the audit of the consolidated business report as of 31.12.2014 attached to the consolidated financial statements of the year 2014 of TrophyResort Nyrt..

Management is responsible for the preparation of the consolidated business report in accordance with the International Financial Reporting Standards (IFRS).

Our responsibility as well is to assess the consistency of the consolidated business report and the consolidated financial statements.

Our work with respect to the consolidated business report was limited to the assessment of the consistency of the consolidated business report and the consolidated financial statements, and did not include a review of any information other than that drawn from the audited accounting records of the Company.

The consolidated business report of TrophyResort Nyrt. for the year 2014 is in conformity with the data of the consolidated financial statements of TrophyResort Nyrt. for the year 2014.

Application of new and amended International Financial Reporting Standards (IFRS-s)

Changes, new standards and interpretations accepted by the European Union, became effective on 1 January, 2014:

- IFRS 10 Consolidated Financial Statements - endorsed by the EU on 11 December, 2012 (effective for reporting periods starting on or after 1 January, 2014),
- IFRS 11 Joint Arrangements - endorsed by the EU on 11 December, 2012 (effective for reporting periods starting on or after 1 January, 2014),
- IFRS 12 Disclosure of Interests in Other Entities - endorsed by the EU on 11 December, 2012 (effective for reporting periods starting on or after 1 January, 2014),
- IAS 27 Separate Financial Statements - endorsed by the EU on 11 December, 2012 (effective for reporting periods starting on or after 1 January, 2014),
- IAS 28 Investment in Associates and Joint Ventures - endorsed by the EU on 11 December, 2012 (effective for reporting periods starting on or after 1 January, 2014),
- Amendments to IAS 32 Financial Instruments: Presentation - Reclassification of financial assets - endorsed by the EU on 13 December, 2012 (effective for reporting periods starting on or after 1 January, 2014),
- Investment entities (Amendments to International Financial Reporting Standards 10 Consolidated Financial Statement, IFRS 12 Disclosures of Interests in Other Entities, and IAS 27 Separate Financial Statements) - endorsed by the EU on 20 November 2013 (effective for reporting periods starting on or after 1 January, 2014),
- Consolidated Financial Statements, Joint Arrangements and Disclosure of Interest in Other Entities: Transition Guidance (Amendments to International Financial Reporting Standards 10, 11, and 12) - endorsed by the EU on 4 April, 2013 (effective for reporting periods starting on or after 1 January, 2014),
- Impairment of Assets (Amendments to IAS 36) - endorsed by the EU on 19 December, 2013 (effective for reporting periods starting on or after 1 January, 2014),
- Novation of Derivatives and Continuation of Hedge Accounting (Amendments to IAS 39) - endorsed by the EU on 19 December, 2013 (effective for reporting periods starting on or after 1 January, 2014).

These amendments, new standards and interpretations do not influence materially the Group financial statements.

New standards, interpretations and changes, accepted by the European Union becoming effective after the current reporting period

- annual Improvements to IFRS 2011-2013 Cycle, standards amended: IFRS 3 Business combinations; IFRS 13 Fair value measurement; IAS 40 Investment property - endorsed by the EU on December 18, 2014 (effective date is to be set later),
- annual Improvements to IFRS 2010-2012 Cycle, (standards amended: IFRS 2 Share-based payment; IFRS 3 Business combinations; IFRS 8 Operating segments; IAS 16 Property, plant and equipment; IAS 24 Related party disclosures; IAS 38 Intangible assets) - endorsed by the EU on December 17, 2014 (effective for reporting periods starting on February 1, 2015 or later),
- defined Benefit Plans: Employee Contributions (amendments to IAS 19) - endorsed by the EU on December 17, 2014 (effective for reporting periods starting on February 1, 2015 or later),
- Interpretation 21 of the International Financial Reporting Interpretations Committee (IFRIC) Levies - endorsed by the EU on June 13, 2014 (effective for reporting periods starting on June 17, 2014 or later).

The Group has not chosen the early application of the above standards.

Declaration of compliance

The consolidated financial statements were prepared in accord with the International Financial Reporting Standards (IFRS) as endorsed by the EU.

According to legal provisions it is compulsory for the company to have the annual report audited.

Auditor: dr. Serényi Iván ny.sz.: 003607
 Registered audit company: AUDIT-SERVICE Kft. ny.sz.: 001030

Legal representation: Dr. Lex Annamária

Person responsible for accounting:

- name: Lauf László
 - address: 1044 Budapest, Frangepán u. 36.
 - registration number: 148544

Bank accounts: - HUF: Mohácsi Takarékszövetkezet Zrt., MKB Bank Zrt.

Accounting policy

The currency of book-keeping: forint (HUF)

The method of book-keeping: double entry bookkeeping, IFRSs as endorsed by the European Union

Closing date of the company: 31.12.2014

Balance sheet prep. date: 31st of January

Regulations characterizing the accounting principles:

- = Departure from the accounting principles: none.
- = Departure from the laws in force, permitted by the auditor: none.
- = Departure from the adopted valuation concepts: none.
- = Consistent exchange rate at the valuation of foreign exchange assets and liabilities: exchange rate of Hungarian National Bank
- = In the course of their work the principle of prudence and „true and fair view“ is enforced, it is applied together with the principle of going concern.

The statement on completeness guarantees the completeness of the processing.

Between the dates of annual closing and balance making there was no essential information modifying the situation of the company, thus the closing data of the company can be valued as those of an operating undertaking.

The length of the reporting period differs from the previous reporting period (IAS 1.49):

Form of financial statements: consolidated financial statements

The presentational currency is the same as the functional currency, HUF (IAS 21.53).

Operating segments

The activities of the Group can be divided to the following four segments:

- trade of used clothes,
- trade of pellet furnaces,
- advisory services,
- tourism services.

The consolidated statement of financial positions and the consolidated statement of profit or loss and other comprehensive income can be read separately (as a part of this financial statements).

When assigning the accounting balances to operating segments the Group followed the principles hereunder:

- the items that were individually assignable to a specific segment, were taken into consideration at that segment,
- the residual balances were divided to each segment on the base of the net sales revenue.

The breakdown of the net sales revenue among the operating segments in the current year is as follows:

Denomination / THUF	Amount	Ratio
- trade of used clothes,	140 122	15,49%
- trade of pellet furnaces,	67 856	7,99%
- advisory services,	641 603	75,52%
- tourism services.	50	0,01%
Total	849 631	100,00%

The breakdown of the net sales revenue among the operating segments in the previous year is as follows:

Denomination / THUF	Amount	Ratio
- trade of used clothes,	70 090	8,28%
- trade of pellet furnaces,	490 758	57,99%
- advisory services,	282 355	33,36%
- tourism services.	3 063	0,36%
Total	846 266	100,00%

Financial instruments (Accounting policy)

A financial asset or financial liability at fair value through profit or loss

A financial asset or financial liability at fair value through profit or loss is a financial asset or financial liability that is classified as held for trading and any such financial asset or liability under IAS 39, that is classified upon initial recognition by the entity as at fair value through profit or loss.

A financial asset or financial liability is classified as held for trading if:

- it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

The financial instruments of this group has to be measured at fair value through profit or loss.

The Company had no financial assets and financial liabilities measured at fair value through profit or loss in previous and in current reporting period.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity that an entity has the positive intention and ability to hold to maturity.

Excluding:

- those that the entity upon initial recognition designates as at fair value through profit or loss;

- those that the entity designates as available for sale; and
- those that meet the definition of loans and receivables.

Held-to-maturity investments are measured at amortised cost, for the calculation of which the effective interest method is applied. Revenues can be only accounted when they can be measured reliably and when the entity realises profit through the transaction.

The Company had no financial assets classified as held-to-maturity investments in the previous and in the current reporting period.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than:

- those that the entity intends to sell immediately or in the near term, which shall be classified as held for trading, and those that the entity upon initial recognition designates as at fair value through profit or loss,
- those that the entity upon initial recognition designates as available for sale, or
- those for which the holder may not recover substantially all of its initial investment, other than because of credit deterioration, which shall be classified as available for sale.

These instruments are measured at amortised cost. The amortised cost is the amount at which the item is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectability.

Items classified by the Company into this category are as follows:

- Liquid assets, see reference No. 7,
- Receivables, see reference No. 5,
- Long-term receivables and loans see reference No. 3 for details.

Available-for-sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available for sale or are not classified as (a) loans and receivables, (b) held-to-maturity investments or (c) financial assets at fair value through profit or loss.

They are measured at fair value, but the difference resulting from fair value measurement is presented in other comprehensive income accounted in own equity.

The Company had no financial assets classified as available-for-sale financial assets in the previous and in the current reporting period.

Other financial liabilities

Every financial liability, that is not classified as financial liabilities measured at fair value through profit or loss is classified into this category.

They are measured at amortised cost.

Items classified by the Company into this category are as follows:

- Current liabilities, for details please read reference No. 10,
- Long-term and subordinated liabilities: see reference No. 9.

The classification of financial instrument was done in the same way as in the previous reporting period.

Most significant events of 2014

Significant changes were caused in the balance sheet, profit and loss statement compared to the previous year:

see details at the specific financial statement line later.

Effect of current year's mergers, transitions

no such event.

Control acquired over subsidiaries, other entities (IAS 7.40)

			%
Share of intangible goods:	0,00%	32,79%	0,00%
Ratio of intangible goods:	0,00%	18,35%	0,00%
Degree of wearing out:	0,00%	100,00%	0,00%

Principle and method of fair valuation:

The establishment of the fair value of goodwill has been done on the base of business plans. These plans bear risks. Because of this the person carrying out the valuation, György Guttman independent auditor has provided for a 50 per cent risk coverage. The fair value was equal to the carrying value of goodwill. No impairment was necessary.

The business plans of subsidiaries, the plan for credit application and the plan attached to the capital raise brochure built the base of the business valuation.
The valuation reports prepared for the date of purchasing the subsidiary and for the balanced sheet date confirmed a fair value matching the book value of the goodwill.

Extraordinary events of the year:

The parent company acquired 100 per cent of the business share of Örség MedicalCenter Kft. on March 17, 2014. The goodwill shown in the statement of financial positions was presented in connection with the consolidation of the subsidiary.

Changes following the year:

none.

Relationship between tax expense (income) and accounting profit (IAS 12.81 c) and IAS 12.81 d))

Description / THUF	31.12.2013	31.12.2014
Profit before taxes of continuing activities	135 336	304 968
Income tax expense calculated with a tax rate of 10,00%	13 534	30 497
Effect of expenses that are non-deductible when determining the tax base	2 979	3 089
Other	-3 855	-6 331
Effect of temporary differences (not taken into account as deferred tax asset)	-6 875	-14 840
Effect of bad debt provisions (temporary difference)	3 020	8 509
Total	12 658	27 255
Income tax expense accounted charged to profit or loss (in connection with continuing activities)	12 658	27 255

When preparing the calculations of 2013 and 2014 above, the tax rate of 10,00% was applied, which is in effect for companies on the base of the Hungarian tax laws in Hungary. (IAS 12.81 c))

Income taxes accounted directly in own equity

The Company did not present any income taxes accounted directly in own equity either in its current or in last year's financial statements

Income taxes accounted in other comprehensive income (IAS 12.81 a)b))

The Company did not present any income taxes accounted in the other comprehensive income either in its current or in last year's financial statements

Deferred tax balances

The Company did not present any deferred tax items either in its current or in last year's financial statements, because the amount of temporary differences was insignificant.

The deferred tax assets / liabilities in the statement of financial positions are as follows

Description / THUF	01.01.2013	31.12.2013	31.12.2014
Deferred tax assets	0	0	0
Deferred tax liabilities	0	0	0
Balance	0	0	0

Introducing terminated activities

The Group had no terminated activities in previous year as well as in current year.

Profit accounts - deferred losses

There are no losses carried forward at any member of the Group.

Aging of financial instruments due but not impaired
31.12.2013

Description / THUF	0-3 months	3-6 months	6-12 months	over 1 year	not due	Total
Deposit (Loans and receivables)					176	176
Accounts receivable (Loans and receivables)					31 115	31 115
Other receivables (Loans and receivables)					298 466	298 466
Total	0	0	0	0	329 757	329 757

Presentation of individually impaired assets

The impairment of receivables was calculated in groups on the base of the rates determined in the Accounting Policies. The current rates are presented at the section for Receivables (see reference No. 5).

Presentation of liquidity risks

Liquidity risk means that the Company might be unable to meet its payment obligations on time.

Details on the payment liabilities of the Company, the presentation of maturities can be read at sections short-term and long-term liabilities (see references No. 9 and 10).

Exchange rate risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates.

Foreign exchange risk is connected to financial instruments that are not denominated in the functional currency.

Generally all non-functional currency exchange rates mean relevant risk factors, if the Company has financial instruments denominated in that specific foreign currency.

The Company had no significant financial instruments and transactions denominated in foreign currencies either in the current or the previous reporting period, so its exposure to exchange risks is negligible, so the sensitivity analysis is not presented.

Interest rate risks

The Company is exposed to market risks due to changes in interest rates.

The significant items exposed to interest rate risks are presented in sections short-term liabilities and long-term liabilities (see references No. 9 and 10).

The Company had no interest rate swap transactions during the current and previous reporting periods.

Short description of indicators used

36/36

Report on the Issuer's activities in 2014

5.1. Company profile

TrophyResort, Nyrt. plans to build a chain of luxury hotels providing additional wellness, health and medical services to its customers. The company implements a timeshare concept to its activities. The first hotel with a medical center is located in Hegyhátszentjakab (Hungary). The Company plans several further Investments in the hotel business. Another business line is project management. The Company provides its clients undertaking investment projects with comprehensive advisory services consisting of project planning, preparing feasibility studies, financial planning, acquiring EU grants, machinery and equipment procurement, selection of contractors and coordination of works of all parties involved. The Company will continue to provide project management services in the next years to ensure liquidity for the main activity.

By reliance upon the complex wellness center and the planned chain of additional hotels to be purchased at a later point of time, the Company elaborated a system for the sales of timeshare. Buyers of the timeshares shall obtain a right of use in respect of the apartment/hotel room purchased. Reservations and exchanges shall be facilitated online in each case, through the website's reservation system. The owner of the timeshare shall be entitled to use all free-of-charge services of the hotel, and shall be entitled to discounts from services available for payment.

Due to reconstruction works the first hotel was out of service in 2013. The hotel has been closed since May 2012. All of the project will be completed by the end of 2015, the last investments relating to medical services will be finished in October of 2015. The complex wellness center will consist of a four-star superior hotel with a healthcare center and further facilities providing entertainment and leisure opportunities. Issuer expects first revenues from the project after completing all work associated with the reconstruction i.e., in October 2015.

Due to reconstruction works of the first hotel the project management branch was a main source of revenues in the last two years. Most of 2013 and 2014 sales revenues resulted from advisory services provided by the project management branch while almost a quarter of sales revenues resulted from foreign trade (mostly imported machinery and equipment for projects managed by the Company).

Share of each group of activities in total net sales revenue of the Issuer:

	2012		2013		2014	
000' HUF	Net Sales Revenue	Share	Net Sales Revenue	Share	Net Sales Revenue	Share
Basic activity (hotel, restaurant)	197,380	82.33%	-	-	-	-
Advisory Services	-	-	581 538	66.35%	453,196	34.05%
Foreign Trade	40,194	16.77%	206 091	23.51%	481,742	36.20%
Other activities	2,149	0.90%	88 839	10.14%	395,936	29.75%
Total	239,724	100%	876 468	100.00%	1,330,874	100.00%

5.1. Description of the organization of the issuer's group

TrophyResort Nyrt. forms capital group that consists of 2 companies: the Issuer which is TrophyResort Nyrt. and ŐRSÉG MEDICAL CENTER Kft. the company controlled by the Issuer. The Issuer owns 100% of the shares ŐRSÉG MEDICAL CENTER Kft. The report Őrség MEDICAL CENTER Kft. is consolidated.

Capital structure of the group companies:

5.1. Issuer's shareholding structure including specification of shareholders

Shareholder	No of shares/No of votes	Shareholding/votes at General Meeting [%]
Öregné Kocsis Petronella*	11,649,884	55,47%
Csák Tamás*	562,500	2,68%
Others	8,784,616	41,85%
Total	21,000,000	100,00%

* - Members of the board of directors

5.2. Mission, Vision and Strategic Objectives

5.2.1. Mission

The Company's mission is to offer premium medical specialist, health and hotel services, thus also contributing to a high-level lifestyle. Furthermore, the mission is to make high-quality services available to larger masses, thereby creating a real-life experience for every guest of TrophyResort, thus contributing to a better lifestyle niveau.

„...because beauty begins with health...”

5.2.2. Vision

During daily operation, beyond profitability indicators, the Company keeps in mind a lot higher aim: the Company intends to make Medical Center and TrophyResort Órség one of the leading medical and hotel chains of Hungary and Central-Eastern Europe in the following 5 years, and thus to create a new superbrand, by continuously enhancing the corporate value to our Partners', Guests' and Customers' entire satisfaction.

5.2.3. Strategic Objectives

While retaining some of the previous activities, the main activity of TrophyResort Nyrt. has become hotel operation from 2010. The corporation's strategy is focused on the development of the complex wellness centre consisting of four-star superior hotels, apartments, a healthcare centre and further facilities providing entertainment and leisure opportunities (adventure park, theme park, etc.).

The Board of Directors plans several further investments in the hotel business. The strategy is to purchase existing hotels, renovate and enhance them to provide additional wellness and medical services. The Board of Directors has already identified 2 additional hotels that the Company would like to include into the chain by the end of 2015.

TrophyResort Nyrt. intends to operate primarily in the Hungarian and international tourism and hotel market, combining the classic and luxurious hotel services with services and products that are still unique in the market and which will be cutting-edge ones in the future. Its mission is to create a Hungarian-founded network of hotels that is able to expand internationally and which is competitive also in the foreign markets - while maintaining an ethical and fair business operation - in order to ensure a long-term and profitable way of operation.

During the daily operation, apart from the economic indicators the Board of Directors have a much higher purpose, too: they would like to make TrophyResort Nyrt. one of the leading hotel chains of Hungary and Central and Eastern Europe during the next 5 years, by which they would create a new superbrand, by continuously increasing the goodwill, to the complete satisfaction of its partners, clients and investors.

Under the TrophyResort franchise, the Company intends to create a new brand that represents the luxury category. Its members would be the smaller accommodations operated as a club, to be purchased or built later on, respectively, those joining the franchise system.

In the strategic plans of the Company the sale of timeshares has a major significance. Once the system starts to operate, revenues related to the timeshares may account for 20% of all the planned revenues. In order to support the sales of Time-shares, development of an own exchange system is planned, as well.

5.3. Complex wellness center in Hegyhátszentjakab (Hungary)

Complex wellness center in Hegyhátszentjakab (Hungary) is the first investment of the Company in the hotel business. Hegyhátszentjakab is located at the border of Órség in Vas county. In addition to domestic tourists, the triple border makes available also a wide range of foreign guests: the town is located for 30 km from Croatia, 20 km from Austria and 18 km from Slovenia.

The project has been divided into several stages. Each stage will be co-financed with donation acquired by the Company. Several stages has been successfully completed in 2014. Detailed information about the timing, expenditures and donations granted or expected to be granted of each stage is listed below:

All required construction permits for every stage of the investment have been granted. The Company has started construction works for all stages.

Assuming that all expected donations will be granted, required own financial contribution amounts to HUF 1,472,033,862. The Company covers required own financial contribution with retained earnings, issue of new shares and bank loans.

5.4. Other investments

5.4.1. Industrial components production

The industrial components production factory plant is under planning and development. The location is in Heves County, Markaz, Hungary. The aim of the project is to build and develop modern Industrial (mainly automotive) components production factory. In that development 3658 m² new building will be build and will be create the total infrastructure (as gas, water, telecommunications, electric current and the sidewalks, ways, lighting). Solar cell system, solar collector also will be implement for the sustainability.

The investment will be completed in October 2015. Total cost of the investment amounts to HUF 1,035,919,079. Donation in the amount of HUF 524,924,378 has been granted to the Company for this investment project. The missing own contribution was paid by Petronella Öregné Kocsis to the company carrying out the general construction work. Aside from the ones mentioned above, the company does not intend to use any external loans or resources to carry out the investment. Previously the loan provided by the FONTANA Credit Takarékszövetkezet was redeemed by Petronella Öregné Kocsis, therefore the real estate is unencumbered at the start of the investment that is planned for March 2015.

Construction permit has been granted. Construction works has not been started yet.

On 25 March 2015 TrophyResort Nyrt. (Seller) signed with the company Nero Trade Kft. (Buyer), a preliminary agreement for the sale of the property in Markaz. The transaction value is 700 million HUF. Delivery date is 31 December 2015.

On 26 March 2015 TrophyResort Nyrt. (Seller) signed with the company AL-LI sro. (Buyer) a preliminary agreement for the sale of machinery and equipment in factory in Markaz. The transaction value is 450 million HUF. Delivery date is 31 December 2015.

On the October the first, 2014 the Issuer has signed the agreement with general contractor of part of the investment. Execution of contract is planned for the 31st of October 2015. The value of the contract is HUF 1.05 bn.

5.4.2. Office building in Budapest

The project is the construction of an additional level to the office building under Budapest, Szabács utca 7 én district XIV (Szabács-Iroda Kft.), which project is already underway with a construction permit.

5.4.3. Further investments

In addition to the investments and developments in Hegyhátszentjakab, the company plans to acquire further hotels as well. The company primarily intends to fill the hotels abroad in its own timeshare system, thus they can allow the owners of the rights to reach several popular destinations without any exchanges. The business plan includes the purchasing of 1 hotel with approximately 60 rooms in each of the following countries: Greece, Spain, Italy and Croatia (seaside hotels); Austria (a hotel in a skiing centre), Paris and Berlin (city hotels). With the present reduced prices known, the above countries may offer advantageous purchase opportunities.

The Medical division would constitute a fundamental part of each hotel, and its services would be identical with those in the hotel in Hungary, and we would like to include the various leisure time activities in the offer of our foreign accommodations as well. We intend to unify everything so that each guest may enjoy the same expected service in each hotel unit, in the same conditions and with the same services provided.

5.5. Main factors affecting financial position and results in 2014

In the four quarters of 2014 the hotel was still closed due to an extensive renovation, while the project management branch performed much better than in the four quarters of 2013. Consolidated net sales revenue amounted up to HUF 818.8mn (EUR 2.60mn), EBITDA amounted up to HUF 435.4mn (EUR 1.38mn), while net profit amounted up to HUF 287.5mn (EUR 0.91mn). EBITDA and net profit increased by 41% and 134% respectively. EBITDA margin and net profit margin amounted up to 53% and 35%, respectively. Improvement of financial results was driven by the growth of project management branch.

TrophyResort Nyrt. has multiple contracted partners for providing further orders and clients in relation with project management advisory services. The fact stated above that the Hungarian state is expected to be granted approx. 12.000,- Bn HUF in the upcoming EU-budget period does mean the partnership the Company has built in the last recent years and the fulfilled clients' widespread business connections altogether are with grounds expected to new orders.

As stated before, all EU-Hungary tenders are open and accessible via net on a Hungarian Government home page. TrophyResort Nyrt. has filtered this database through call center calling and via email inquiries best complying to its business aims. This meant direct marketing strategy and actions but thanks to the former marketing actions, the partner database and the satisfied clients' references, now inquiries are coming to TrophyResort Nyrt. from potential partners. The latter become the most significant and dominant way of gaining new orders and partners.

On February 2014 an increase in share capital to HUF 2,736,000,000 has been registered.

In 2014 a donation in the amount of HUF 524,925,520 has been granted to the Company for the investment project.

In 2014 a donation in the amount of HUF 34,733,160 has been granted to the Company for aquapark development of Vadasa-lake.

On the October the first, 2014 the Issuer has signed the agreement with general contractor of part of the investment. Execution of contract is planned for the 31st of October 2015. The value of the contract is HUF 1.05 bn.4.6. Main events after the balance sheet date.

On February 2014 an increase in share capital to HUF 2,736,000,000 has been registered.

Several parts of the main investment (complex wellness center) has been completed in 2014.

In 2014 a donation in the amount of HUF 524,925,520 has been granted to the Company for the investment project.

In 2014 a donation in the amount of HUF 33,000,000 has been granted to the Company for aquapark development of Vadasa-lake (part of the main investment).

5.6. Main risk factors

5.6.1. Risk factors connected with the environment in which the Company runs its activity

Macroeconomic risks

The operation and success of TrophyResort, Nyrt. is basically related to the situation of tourism in Hungary and at regional level. Now, as tourism oriented travels are characteristically paid for from disposable income, and they are based on business decisions, the performance of Hungarian and regional tourism is to a great extent influenced by international and domestic macroeconomic events, and as a result, by the change of demand: the trend of amounts available for travel, the frequency of travels, and the popularity of individual motivation factors.

Should there be negative changes occurring in respect of national and/or regional macroeconomic circumstances, should the pace of economic growth be decreased, and the external and internal balance positions be weakened, then the Company will not be able to render itself independent from the impact of any unfavourable processes potentially incurred.

Regulatory risks

In the last couple of years, unpredictable and unexpected changes to the regulatory environment or significant turns regarding governmental economic policy were not uncommon in Hungarian economy. The trends in economic policy, and through that of inflation, exchange rate policy and the interest rate environment, may have a significant impact on the return on the investment of shares. In addition thereto, the frequently and unpredictably changing national legal and taxation environment also represent a risk, and changes may have a significant impact on the Company's business activities and financial results.

Additionally, In the past couple of years, unpredictable and unexpected changes to the national regulatory environment have become even more frequent than in the past, also with special regard to certain industrial sectors, not only in respect of the entirety of the economy. It cannot be excluded that also the tourism and hotel sector, or individual participants thereof would also be affected in the future by regulatory changes of such nature that are of unpredictable timing, extent, and that fundamentally influence the results of the Company in a manner that cannot be estimated in advance.

Political risks

Although in general the national and regional political situation has only little influence on the operation and success of the Company, but the development of situations where operations and sales are made more difficult, or in an unfavourable situation even prevented, cannot be excluded.

Risks connected with the tourism sector

Hungary, as a touristic destination, does not dispose of a uniform and attractive image, or a strong and unique brand. Although in the past couple of years there is a shift to be perceived towards the West, and Hungary is no more listed as an "Eastern" country in several surveys, and where the general opinion on Hungary among foreign tourists is favourable, the reputation of the country and the relative weakness of personal ties may have a negative effect on the occupancy and success of the accommodations operated by the Company.

In comparison with other European countries, the rate of domestic tourism is relatively low: whereas in the case of countries able to demonstrate favourable trends of tourism, the ratio of domestic travels is 60%, in Hungary this figure is 50%. Domestic tourism related activity is low, as just over 30% of the Hungarian population plan domestic travels of several days. The social acceptance rate of domestic tourism is relatively low, and that of travels abroad is higher than that of the domestic ones. It is a general opinion and hard to change that domestic tourism is expensive, and supply is

poor as compared to other countries. It may be that this opinion will further be strengthened, and this could have a negative impact on the success of the Company.

The achievements of Hungary as regards tourism is below the European average, so there should be a pace of development achieved that exceeds the average in each segment in order to be able to catch up with others. Although holiday vouchers still available in the market, and the Erzsébet card in substitution thereof, as well as "long weekends" related to public holidays may counterbalance part of the unfavourable factors, the decrease of the pace of Hungarian economic development, the prolongation of the loan crisis, and, in parallel, the trend of domestic demand and of disposable income may potentially have a negative impact on the achievements in the tourism sector in the foreseeable future.

Exchange rate risks

The trends of turnover and revenues in the domestic tourism sector may be substantially influenced by the HUF exchange rate as compared to foreign currencies, with special regard to the EUR. The trend of the exchange rate may influence among guests the choice between domestic and foreign destinations, as well as the value realisable in HUF of prices fixed in foreign currency for the entire period of the season. A change of the exchange rate in a direction and to an extent that may decrease the revenues and profits of the entire industrial sector cannot be excluded.

The Company plans to define and announce the rates of the hotels and other facilities basically in Hungarian Forints and the time-share prices would be set in this currency too. The vast majority of the raw materials and services used will be purchased also in the Hungarian market and this limits the effects of the changes in the exchange rates. However, the change in the exchange rates may reach an extent, where the effects directly or indirectly increase the costs, expenses of the Company and it has such an impact on the guests' income situation, which can affect the revenues of the Company as well.

Risks pertaining to the operation of the time-share system

The system of time-share has been known for a long time, to a wide range of people, and opinions about it are in general favourable among users. However, there are also negative statements to be heard of or read about in respect of the system, by disappointed customers. The reason for those may be information provision that is not entirely correct and wide-ranged prior to purchase, in the absence thereof customers may view the payment of annual operating and maintenance charges as a negative aspect. The judgement of the system may also be less favourable due to the dissatisfaction of customers who are uncertain about whether they would be able to utilise their holiday units subject to due frequency. Although the Company specifically aims to employ, train, control (by management) on a continued basis, and supervise the work of a correct time share sales staff by background materials and regulations, it is possible that an unfavourable assessment of the system of time share may have a negative impact on the results of the Company.

By the time of the signing of this Information Document, the Company has already elaborated in detail the methodology, management and process description of Time Share sales. These detailed pieces of documentation will serve as a basis for the sales of time share (which process is connected at many points to the provision of occupancy rates for the hotels).

In spite of the above, various risks that may put at hazard the efficient sales of time share may not be excluded. These risks may include if there are few guests attending the presentations advertised, or if

in the event of a high participation rate the Company will only be able to achieve low sales rates. It may also be the case that services related to time share (exchange, bonus week, resale) do not work as expected, and thus the efficiency of sales will decrease. It may also be that some customers will become dissatisfied with their Time Share exchange partner.

Changes to the family status or financial circumstances of the owner of time share, their potential dissatisfaction or the execution of a will may cause the owner to decide to sell their time share. The resale of time share may cause problems for owners in certain cases, primarily due to the insufficient nature of objective comparable prices. In several cases this may entail dissatisfaction between owners willing to resell and interested parties intending to buy. In addition thereto, a problem may be the vast number of offers by the new facilities: newly built facilities must be sold as soon as possible, therefore it is not in the interest of the main contractor and the operator of many Time Share facilities to participate in the resale market. Due to potential problems of resale it is possible that the revenues of the Company and thus its result will decrease, also having an impact on the return of investment in shares.

Risks related to the market competition

There is an intense competition in the Hungarian tourism and hotel market. The price and the quality as well as the complexity of the services play equally important roles in this competition. Although the Hotel and entire complex center to be operated by the Company will face no competitor in its direct region, several 4* hotels operate in the wider region in Hungary, Austria and Slovenia. Multiple facilities in the area offer similar services like the ones to be provided by the Company (Wellness, Spa, Adventure Park, health) although the complexity of their services is not at the same level.

The Time-share market is also very competition-driven in Hungary. Many companies offer Time-share type rights and also other forms of timeshared recreation.

Despite of the late market introduction, according to the plans the Company will be a recognized player in the tourism and hotel market of the region but in order to keep its position it will have to continuously fight for the clients' satisfaction both in terms of pricing and services. A possible further strengthening in the intensity of the competition may result in the reduction of the achievable recovery rate and profitability and it may also generate substantial investment requirements.

Risk related to the changes in the consumption patterns

The consumption patterns, the guests' expectations change slowly and gradually in the tourism and hotel market of the region. The regular satisfaction surveys and various market researches the Company plans to carry out will help tracing the changes and they can be used well during the elaboration of the investment and development plans. Tracing the tendencies and training the employees are part of the plans in the servicing industry. Even so, after a certain time the hotel or rooms design may not be satisfactory for a part of the clientele. By time, the hotel services (restaurant, wellness, parks, etc.) may also become inappropriate to meet the guests' demands. The Company may be forced to offer special discounts, carry out unforeseen investments or pay unplanned costs, which may all reduce profitability.

5.6.2. Risks characteristics of the Company

Risk of the ongoing investments

The investments launched by the Company are at advanced stages. The building investment of the complex center in Hegyhátszentjakab and the formation of the necessary organizations and procedures are underway. The investment is going on as planned. However, possible delay cannot be entirely excluded. Such delay may have negative effect on sales revenue and profitability of the Company.

Despite of the careful designing and selection of the contractors certain building defects may be revealed during the use only and this can induce even substantial extraordinary expenses, investments. Besides that, during the operation technical defects (broken pipe, power failure or heating failure) may occur at high frequency and the correcting activities may require time and resources causing even the decrease in the guests' satisfaction level.

Risks connected with the implementation of necessary developments

The Company has executed very considerable investments during the past months and the implementation of the further short and medium term plans will continue as well. The financing of these developments seems to be ensured partly from our own sources, partly from state and EU supports and in a smaller part from loans. Although it does not happen frequently in the hotel and tourism industry, but the sharp competition may force us to make further unforeseen developments. The Company may not be able to finance these further developments from its generating cash-flow and the sources available and this may have a negative impact on the medium term profitability.

Risk of losing key managers

The management has a key role in the business performance and success of the Company. Elaboration of strategy, implementation of investments, obtaining state subsidies, definition and supervision of operation processes, keeping clients and guests all highly depend on the skills and enthusiasm of these experienced professionals. The stipulation "Prohibition of management competition" in this form is not part of the managers' contract as according to previous experiences it can easily be evaded. The Company strives to keep these key professionals by cultivating the existing tight connections and offering them competitive job conditions. However, there is no guarantee against a bad scenario when the Company may lose one or more experienced professionals. To the best knowledge of the management staff, none of the key employees are involved in competitive activities.

Risks connected with the pricing model

The pricing process regarding the hotels and facilities intended to be operated by the Company was preceded by detailed analysis, but it is possible that the room prices advertised would prove to be too high or too low as compared to market demands and the concepts envisaged by the management of the Company. It may be that the Company will not be able to adequately address the targeted scope of customers, or that other than the scope of guests envisaged would be formed. It may also be that the occupancy rate of the hotels will remain below the expected levels despite the detailed and elaborated plans.

Risks connected with the operating license

The Company has started the investments based on detailed plans elaborated carefully for every area, in cooperation with the authorities. Still, during the implementation of the investments some problem may occur or certain rules may change in a way that the authorities finally refuse to issue required permits.

Risk related to the dependence on the hotel employees' work

The Company does its best to follow the most careful procedure during the precisely regulated selection and the following training of the hotel employees and by applying proper motivation and incentive systems, organizing trainings and using the methods of competence management make the employees carry out outstanding performance. The already prepared code of ethics, code of attitude and code of behavior are all aimed at regulating the employees' work for this purpose. However, it cannot be reasonably excluded that certain employees may reduce the satisfaction level of certain clients during their work and this may have a negative impact on the profitability of the Company, which in turn strongly depends on the performance of these employees.

Tax risk

The tax authorities are authorized to inspect the tax-related affairs of the corporation, for a period of five years from the given tax year. In case of a future tax inspection it is possible that findings will be made at the corporation which will involve significant expenses.

In case of the business tax and the other local taxes, currently the corporation pays the maximum tax that can be imposed by the local governments. However, with regard to local taxation it is possible that due to the regulatory changes, the tax burden will be increased.

Risk of delay in state aid payment

Since 2010, the Company (and its legal predecessor) has concluded several grant contracts, by which it has obtained a source of financing its investments. Donation financing granted to the company amounts to HUF 1,046,346,058. Up to date HUF 327,399,710 of donation financing has been received by the Company. HUF 718,946,348 financing of granted normative donation is expected to be received by the Company in the next months. Additional support expected by the Company to be granted in 2015 amounts to HUF 582,070,000. The usually subsequent payment order is regulated in detail by the contracts and they bind it to the progress of the investment. It is possible that due to the delay of government bodies or due to an unfavourable development of the budgetary situation the payment of the due grant amounts becomes more or less delayed. In this case, the Company may become forced to seek financing from other sources or postpone other investments, thereby impairing its effectiveness.

Risk of non-compliance with the terms and conditions of the state aid, risk of repayment

The concluded grant contracts impose various obligations on the Corporation, the failure to comply with which may result in the withdrawal of the contract by the sponsor, furthermore, if the Corporation does not fulfil completely its obligations undertaken in the contract, it has to pay back the grant and the interest charged.

It cannot be excluded that the Corporation fails to meet certain future conditions or obligations, due to which it may become forced to seek for other forms of funding, reducing its effectiveness.

4. The Statement of the Board of Directors

The Board of Directors of TrophyResort Nyrt. ("Issuer") declares that, according to their best knowledge, the annual financial statement and comparative figures have been prepared in accordance with official regulations and the International financial standards.

Annual financial statement gives a true and fair view of Issuer's financial position and his financial performance including a description of the main threats and risks.
