

December 5, 2012

Ukraine approved as an importer of poultry products to the European Union

According to the official message of the State Veterinary and Phytosanitary Office of Ukraine, on December 4, 2012 by a vote of the Standing Committee on the Food Chain and Animal Health (SCoFCAH) of the General Directorate of the SANCO European Commission, Ukraine was unanimously included in Annex 1 of Regulation 798/2008/EC listing third world countries authorized to import poultry products (poultry meat, egg products and eggs for processing) in the countries of European Union. This decision presents Ukrainian companies in the poultry industry with new opportunities to supply their produce to the European Union. Deliveries may start not earlier than 2-3 months from now.
